FAQ

Who will shoot my wedding photos; do you employ other photographers?

I will. I may have a 2nd photographer with me, but I will always be the primary photographer.

Why should I hire a 2nd photographer from you to shoot my wedding?

I think my best weddings are those where I have employed a 2nd photographer.

A 2nd photographer can capture images of the groom and his friends getting ready while I am with the bride. I can't be in all places at one time but with a 2nd photographer I can capture two events at one time or the same event from two different perspectives. With a 2nd photographer I have a larger pool of images at the end of the day. If I am selecting the best 700 out of 3000 vs. the best 700 out of 1500 I will always have stronger images from the 3000.

I have a friend that likes to take photos and will shoot my wedding for free; is that a good idea? You probably have friends or family that like to cook; would you hire them to cater your wedding? My question: how much are these memories worth to you?

Can I print my digital images?

All my packages include the rights to print your own images. There is a release in the contract.

Do you do video?

No, I am a photographer; that is what I love. I have no interest in video. The best photographers and videographers don't shoot both. I can recommend videographers.

Can I give you a list of must-have photos?

If you give me a list I will do the best I can to capture those images. I find, however, that if you slavishly follow a list, you miss opportunities to capture beautiful moments.

Do you charge extra for travel?

Travel costs are included for any wedding within 90 miles. Outside of that, travel costs are negotiable.

How far will you travel for a wedding?

I have traveled as far south as Sarasota, FL and as far north as Stowe, Vermont to shoot a wedding and am willing to travel further yet for the right opportunity!

What is required to reserve a date?

A deposit of either \$500 or a third of the cost of the wedding package, whichever is greater. No date is reserved until a deposit is rec'd. Keep in mind that I may have several inquiries for the same date so remit your deposit ASAP.

I am not sure what wedding package I want. Can I decide later?

Sure. A \$750 deposit saves the date and you can make a final decision later. I need a great deal of notice, however, for hiring a 2nd photographer.

How far in advance do you book dates?

Up to two years in advance. Typically, though, most couples reserve their date about a year in advance.

What camera gear do you use?

I use Nikon professional camera bodies and lenses. Nothing produces better images in low light.

How long have you been shooting weddings?

7 years.

Do you edit the images you will send to us?

Yes, every image is adjusted manually for optimal image quality.

Do you have any references I can contact?

Certainly; you can also check my reviews on The Knot where I am a Best of Knot photographer.

Do you allow other people to take photographs while you are working?

Of course. I just ask that they be courteous enough to defer to me as the primary photographer. Let me get the shot 1st and then they can have their turn.

Do you accept credit cards?

Yes, but not for the deposit, only for the final payment.

Shouldn't my photographer have a designated back-up in case he/she is sick on my wedding day?

That would be ideal, but consider the plight of the backup photographer who has to turn down weddings just in case she/he is needed for yours? Professionals are part of a network of photographers, and do have many people they can call in emergency. No doubt as your wedding approaches you will have many far more significant worries. Let your photographer manage this problem.

Do you do other kinds of photography? Yes. Please visit www.AestheteStudios.com and FB!
